Mentoring & Onboarding

Agile / Scrum methodology

Pixel-perfect attention

Problem Solving

LANGUAGES

Polish — B2

English — B2

Ukrainian — Native

AVAILABILITY

Available immediately. Open to Remote, Hybrid, or On-site roles (preferred: Wrocław). Willing to relocate.

Yaroslav Stopenchuk

Frontend Developer with 2+ years of experience specializing in **React, Next.js, and TypeScript**. Skilled in modernizing legacy systems, optimizing web performance (LCP/CLS), and delivering pixel-perfect interfaces. Proven ability to mentor juniors and build full-stack MVPs. Open to complex technical challenges.

WORK EXPERIENCE

Frontend Developer (SaaS Development)   May 2025 — Present
Independent Project / Professional Development

- Developing **"Smart Shift Scheduler"**: a workforce management SaaS using **Next.js 16**, reducing schedule planning time from hours to minutes via automation.
- Engineered a custom scheduling algorithm to eliminate human error, ensuring **100% compliance** with staff availability and role constraints.
- Implemented **RBAC & Middleware** security and a custom i18n system, ensuring scalability for multi-region usage.
- Focused on code quality and discoverability, achieving **Perfect SEO (100/100)** and **High Best Practices (92/100)** scores via Lighthouse audit.

Frontend Developer   Oct 2023 — May 2025
RED Software House, Wrocław

- Delivered **10+ commercial projects** (Next.js, Gatsby), consistently meeting deadlines and optimizing initial load times by **~12%** via GSAP/asset optimization.
- **Elektrobohater (Social Platform):** Architected a complex SPA from scratch using **Redux Toolkit & React Query** to handle real-time feeds and filtering for thousands of users.
- **Warsaw Museum:** Modernized legacy React code (Class to Hooks) and fixed Docker environments, reducing maintenance time and cutting editorial turnaround by **30%**.
- **Mentorship:** Onboarded a Junior Developer — explained tasks, answered technical questions, and provided hands-on guidance, reducing their ramp-up time by **~40%**.

Frontend Developer (Training Program)   Sep 2022 — Nov 2022
Itransition

- Completed 3-month training program: React, MUI, and Agile workflows.
- Delivered 6 coding assignments and a final project; passed technical interview.

KEY PROJECTS

Smart Shift Scheduler (Next.js 16, TypeScript, RBAC)
Workforce management SaaS with custom scheduling algorithm and multi-language support.   [Demo]

Warsaw Museum Collections (React, Docker)
Refactored legacy codebase from Class components to Hooks and implemented shopping cart logic.   [Live Site]

RED Software Site (Gatsby, GSAP)
Full refactor. Implemented dynamic routing for multi-language support and high-performance animations.   [Live Site]

Opera Ad Campaigns (Vanilla JS, HTML)
Built pixel-perfect promo sites under strict deadlines.

EDUCATION

Bachelor of Computer Science   2019 — 2023
Lviv Polytechnic National University
