Polish — B2
English — B2
Ukrainian — Native

AVAILABILITY

Available immediately. Open to Remote, Hybrid, or On-site roles (preferred: Wrocław). Willing to relocate.

Yaroslav Stopenchuk

Frontend Developer with 2+ years of experience specializing in **React, Next.js, and TypeScript**. Skilled in modernizing legacy systems, optimizing web performance (LCP/CLS), and delivering pixel-perfect interfaces. Proven ability to mentor juniors and ship production-grade SaaS products. Open to complex technical challenges.

WORK EXPERIENCE

Frontend Developer (SaaS Development)

May 2025 — Present

Independent Project / Professional Development

- Architected **"Smart Shift Scheduler"**: a **multi-tenant** SaaS using **Next.js 16** and **Supabase** with Row-Level Security for complete data isolation between organizations.
- Built drag-and-drop scheduling (**@dnd-kit**) with **optimistic updates and rollback**, ensuring 100% compliance with availability and role constraints.
- Implemented Supabase Auth, **4-tier RBAC** (owner/admin/manager/viewer), and team invitations with token-based email flow and role management.
- Delivered a **5-step onboarding wizard**, Stripe subscription infrastructure, and org settings. **Lighthouse: Performance 100, SEO 100, Best Practices 96**.

Frontend Developer

Oct 2023 — May 2025

RED Software House, Wrocław

- Delivered **10+ commercial projects** (Next.js, Gatsby), consistently meeting deadlines and optimizing initial load times by **~12%** via GSAP/asset optimization.
- Elektrobohater (Social Platform)**: Architected a complex SPA from scratch using **Redux Toolkit & React Query** to handle real-time feeds and filtering for thousands of users.
- Warsaw Museum**: Modernized legacy React code (Class to Hooks) and fixed Docker environments, reducing maintenance time and cutting editorial turnaround by **30%**.
- Mentorship**: Onboarded a Junior Developer — explained tasks, answered technical questions, and provided hands-on guidance, reducing their ramp-up time by **~40%**.

Frontend Developer (Training Program)

Sep 2022 — Nov 2022

Ittransition

- Completed 3-month training program: React, MUI, and Agile workflows.
- Delivered 6 coding assignments and a final project; passed technical interview.

KEY PROJECTS

Smart Shift Scheduler (Next.js 16, Supabase, RLS, Stripe)

Multi-tenant workforce SaaS with drag-and-drop scheduling, 4-tier RBAC, and team management. [\[Demo\]](#)

Warsaw Museum Collections (React, Docker)

Refactored legacy codebase from Class components to Hooks and implemented shopping cart logic. [\[Live Site\]](#)

RED Software Site (Gatsby, GSAP)

Full refactor. Implemented dynamic routing for multi-language support and high-performance animations. [\[Live Site\]](#)

Opera Ad Campaigns (Vanilla JS, HTML)

Built pixel-perfect promo sites under strict deadlines.

EDUCATION

Bachelor of Computer Science

2019 — 2023

Lviv Polytechnic National University
